Subject: An Invitation to Join Earth Hour : Tomorrow Evening

Dear Parents and Carers

St. Mark's Eco-Committee invite you to take part in WWF's Earth Hour. This involves the nation turning their lights off for one hour from 8.30pm tomorrow, Saturday 25th March.

The WWF website states: 'It's a brilliant reminder that together we can make change happen, and it gives us a chance to think about the small things we can do everyday to help create a brighter future. So whether you reflect under the stars or celebrate by candlelight, it's a moment to say you'll do your bit to protect our planet - not just for one hour, but every day.'www.wwf.org.uk)

It would be lovely to see what you do within that hour so we would love you to send or email some photographs so we can add them to our display.

Once again, we thank you for your continued support!

The Eco-Committee
