

St. Mark's C.E. Primary

Friday 11th November

Dear Parents and Carers,

We wanted to write to let you know about the work we will be doing in Year 3 next week.

To enhance the children's understanding of our Christian Values of Understanding, Fairness and Responsibility, linked with our work on British Values and being charitable, and to apply our maths skills in a valuable real life context, the children in both Year 3 classes will be working on a small project to raise money for Children in Need.

Throughout next week the children will

- learn about the work the charity does
- plan a fund raising idea (baking cupcakes)
- work out how many ingredients they will need for 200 cupcakes
- measure the ingredients as they bake the cakes
- calculate how much each cake cost to make and therefore how much we should sell them for
- Advertise and sell the cakes
- Total how much money we have raised for charity.

They will sell the cakes on Friday playtime to all the junior children, so please also remember to allow your child to bring in some money to buy one of their cakes!

We hope that this will be a fun, and meaningful week for all the children.

Yours faithfully

Mrs Barry and Mrs Colley
